

Writing Workshop

6 Weeks to
Accomplished
Essay Writing

June-August 2021

*“The scariest moment is always just before you start.
After that, things can only get better.” ~ Stephen King*

Sharp writing skills enhance school performance. However, becoming a strong and consistent writer takes more than a desire- it takes knowledge and practice.

This student-centered workshop will focus on writing skills needed for students 6th grade and beyond.

Students will be provided explicit instruction in crafting three common writing tasks- the narrative, the analysis, and the research/informational paper.

The importance of planning, structure, individual style and revisions will be emphasized, and explicit skills will be taught to create interesting final works- ultimately resulting in confident and capable writers.
